

# Interactive: Stocks & Options Online

## WHY SHOULD I PARTICIPATE?

Take your investor education to the next level with this intense class. You will dive deeper in to the Investools trading tools and their capabilities than in any other course we offer.

**Turn learning into practical application**  
Because students attending this class have already taken the basic online courses and workshops, this is where learning turns into practical application. It is the most in-demand class we offer.

**Develop specific trading rules**  
You will examine short-term and long-term trading rules, identify specific entry and exit points, and leave with a trading plan developed around your style of trading.

**Take the course online, at your convenience**  
Using an audio/video Webcasting application, you can participate in six weeks of two-hour online sessions wherever you have Internet access. Additionally, there will be one hour of weekly open office time to go over any questions or additional material.

Options trading is generally more complex than stock trading and may not be suitable for some investors. Granting options and some other options strategies can result in the loss of more than the original amount invested. Before trading options a person should review the document Characteristics and Risks of Standardized Options, available from your broker or any exchange on which options are traded.
