

High-Probability Trading

LIVE CLASS

WHY SHOULD I PARTICIPATE?

Focusing on advanced option strategies implemented by professional traders, this class combines Investools' fundamental, technical and option education with risk analytics and probability analysis from thinkorswim®.

WHAT WILL I LEARN?

- How to combine advanced strategies like vertical spreads, iron condors and butterflies to achieve a more balanced portfolio
- Combining long and short premium positions through unbalanced butterflies, unbalanced condors and straddle/strangle swaps
- Position and risk management by position sizing and portfolio heat
- Introduction to futures—for use as a hedging strategy
- Using greeks to manage risk
- Beta weighing
- Capital allocation

WHERE

Chicago, Illinois

WHAT'S INCLUDED?

- Three-day live workshop
- Visit to the floor of the Chicago Board Options Exchange
- Execute multiple live option trades during the presentation
- Participate in a team-based trading competition using real money and live trades
- Four pre-session Webcasts to prepare for the workshop
- Four post-session Webcasts to ensure you have mastered the material

Options trading is generally more complex than stock trading and may not be suitable for some investors. Granting options and some other options strategies can result in the loss of more than the original amount invested. Before trading options a person should review the document Characteristics and Risks of Standardized Options, available from your broker or any exchange on which options are traded.
